

PRESS RELEASE

FOR IMMEDIATE RELEASE

MORE AWARDS FOR BIOVIVA

DBZ Publishing are pleased to announce that hot on the heels of *Bioviva* being awarded the "Seal of Excellence" by the Association for Consumers of Quebec last week (it scored 6++ on a scale of 1 to 6), it has now been awarded "Best New Trivia Game" by "Games Magazine" in the USA.

With these adding to the international awards it has already won, Jean-Thierry Winstel, the creator of *Bioviva*, is understandably pleased: *"This is now our 11th First Prize in 11 competitions, which means that Bioviva is probably one of the most, if not the most, awarded board game in the world!"*

It has only been available for a month in Australia, but has already earned the endorsement of *Keep Australia Beautiful*. Anne Pavey, Executive Director for *Keep Australia Beautiful (Vic)* felt strongly about the game - *"If we want people to change their attitudes and behaviour in relation to the environment, they need to understand more - Bioviva achieves this in a fun and relaxed way."*

Bioviva is a unique new environmentally orientated game. It is played on a topographical map that represents our world in its natural regions, without indication of countries or borders. It is a trivia style game that offers amazing, and often humorous, insights into our wondrous planet and motivates players to act in ways that respect and acknowledge life on earth.

With nine hundred questions, *Bioviva* covers a variety of scientific fields.

Presented in a format that reinforces its principles, *Bioviva* is made from recycled materials and is itself recyclable.

--- END ---
