

# Families in Nature

Discover the most fascinating inhabitants on Earth!

## Contents

- 42 cards
- game rules

## Game Principles and Objectives:

- Players put together cards representing animal and plant species living in the same natural habitat.
- The groupings are obtained by trying to win needed cards away from fellow players. But in order to earn each card, players have to choose the surprising and amusing characteristic that corresponds to the species they want.

## Game Benefits:

Players have fun while discovering the most incredible aspects of 42 animals and plants, and learning to locate them within the different natural habitats: mountains, prairies, temperate and tropical forests, lakes and rivers, savannas and deserts.

A game that is both fun and educational perfect for playtime and travel!
